That all sounds great to me and my apologies for not being able to join the call today. I had a conflicting lead call.

Thanks for reaching out. I had already compiled some comments, but hadn't yet shared it. It is attached.

Hi Madeline,

I understand that you were in a briefing on the National PFAS Data Explorer a few weeks ago and had suggestions re risk communication. It would be incredibly valuable to get your feedback on both the communication plan and the tool itself (paying particular attention to the caveat on the first screen, the pop up disclaimer, and the language under "More Information"). When you have some time, would you mind looking at these and providing some feedback? We'd greatly appreciate it!
